Job Description

At ADA Supreme, our purpose is to help provide Americans with disabilities access to places of public accommodation, entitled under the 1990 ADA Title III, and access to online business platforms, entitled under the 1990 ADA Title IV. In the world where we live, work and play today, we believe businesses should allow access for every American. Enforcement of these rights has regretfully been done through frivolous, vexatious lawsuits and litigation filed by serial litigants and their self-serving attorney. American businesses are fed up with being sued for minor ADA violations, and are now ready to fight back. ADA Supreme is leading the way for these businesses by providing amicable resolution to existing litigation actions against American businesses and offering preventive steps to avoid the risk of being sued by serial litigants.

Our LEad Generation Agents (LeGs) are the fuel that propels ADA Supreme's efforts to bring awareness to American businesses that there are much better alternatives than expensive, stressful, time consuming and distracting defense litigation through the court system. You can become a powerful "leg" for ADA Supreme, powering the company's engine.

As a LeG, you will be provided the opportunity to grow your sales career and control your financial opportunity. Our sales professionals earn commissions that allow independence, recognition, and unlimited opportunities for personal and professional growth and development. All under a very flexible work program that allows you to work when you want, where you want, and how you want. Whether part-time or full-time, the LeG opportunity can show the world that you care about both the rights of

Americans with disabilities and the rights of businesses to not get sued for minor ADA violations. By educating businesses about the ADA, showing them our wide array of solutions that respond and prevent litigation affordably, you are doing a great service to the community and the businesses that serve it.

With the freedom of knowing you can earn a living on your own terms, you can look forward to meeting new people, new business owners, and great people in the community. Your passion for what ADA Supreme stands for will come across loud and clear to the businesses interested in hearing how we can help them open their products and services to all Americans, and how we can proactively prevent or defend their business from costly litigation and other threats due to ADA non-compliance. The job is not complicated to learn, and the services you are introducing are very easy to explain. To maximize your success, the company will provide any and all tools, training and education you need to thrive in the role. Are you interested in a chance to expand your knowledge and grow your earnings? Then check out our LeG position to change your life and start an amazing career!
